

---

# Greek vs Biblical EDUCATION

---

*Greeks sought holiness in beauty, believers seek beauty in holiness.*

---

## Greek

## Biblical

### *Focuses on content*

- Facts and knowledge are supreme.

### *Focuses on context*

- Student learns in the context of a universe created by a loving, personable God.

### *Seeks to shape student's mind*

- The student is considered an empty vessel to be filled.

### *Seeks to shape student's heart*

- The student is an eternal being with worth imbued by God.
- The student needs only parameters and direction (molding).

### *Student patterns after what teacher knows*

- Education becomes a cold, mechanized pursuit devoid of heart or passion.

### *Student patterns after what teacher is*

- Follows the pattern of discipleship exemplified by Jesus with His disciples.

### *Efficiency driven*

- Knowledge is organized into subjects and programs-- "teaching to test" is one of the methods.

### *Relationship driven*

- The foremost consideration is the student in relationship with God and others (including family, church, and community).
